PROJECTS

MERCHANT MARKET PLACE

https://github.com/Lambda-School-Labs/LabsPT13-Merchant-Marketplace-C-FE

Through Merchant Market Place, customers and sellers can connect based on location, delivering services and goods that are local to the users.

HTML | CSS | JavaScript | React | Redux | AntDesign | FileStack
- Using React and AntDesign Built, constructed the interface our clients interact with.
- Redux and SQL are in use to manage the sellers inventory and service availability.
- Sellers are able to display their work and product with the use of FileStack.

Restaurant Passport

https://github.com/bw-restaurant-passport-1

Customers can share their experiences when visiting a restaurant. Giving them a way to collect and share the experiences at these restaurants.

HTML | CSS | LESS | React | Redux
- Built the landing page, providing the first point of contact for our users.

Experience

Best Buy, Santa Rosa   2019 - Current
Home Theater Specialist
- Find solutions for our customers, and show them what is possible.
- Build a relationship with our customers, with a goal of repeat business.
